	Davide Iannini	Costruzioni Iannini Srl	Legale rappresentante	L'Aquila	Costruzioni Iannini Srl, has been proudly operating in both private and public sectors of the construction industry throughout the Italian territory for 40 years. It is headquartered in L'Aquila, 100 km from Rome and has a branch office in Venice. Following the 2009 earthquake that destroyed the town of L'Aquila, it specializes in restorative measures of historic buildings leveraging the skills acquired in rebuilding the town and also in new constructions in compliance with the QMS standards. Furthermore, Costruzioni Iannini Srl owns a longstanding metal factory through which it builds building and bridges. Since 2018, I have been the CEO of this fast-growing firm with a strong technical track record. The firm is divided into: public and private tenders, finance, administration and operations management, whose respective managers refer directly to me.	www.gruppociannini.it
	Carmelo Pagano	Pagano SpA	Dirigente	Roma	I'm a Sales Manager in Pagano SpA. The company's core business is infrastructural engineering systems, systems implemented in large scale works and in the tertiary sector. Pagano SpA is, also, an Energy Service Company.	www.paspa.it

	Michele Mingori	Mingori Srl	Consigliere d'amministrazione	Parma	General Contractor active for more than 120 years in all areas of construction sector - Board member	www.mingorisrl.com/
	Pierfrancesco Tieni	Tieni Costruzioni 1836 srl	CEO	Veneto	Two souls, one passion. We work big, but also small. Public and private: two different souls sharing the same passion for building. If you are looking for a reliable company to renovate or build your first home, or a general contractor for complex public or industrial projects, TIENI Costruzioni 1836 will be your point of reference. Shall we put your project on site? - CEO	www.tienicostruzioni1836.com
	Orfeo Mazzitelli	Ing orfeo mazzitelli srl	Amministratore unico	Bari	The company Ing. Orfeo Mazzitelli, born with the Republic to build a new Italy, road after road, brick on brick. The company was founded in 1946 as an individual company operating in the public and private sector and getting the inscriptions in the categories of road and infrastructure works, civil and industrial building, gas pipelines, aqueducts and sewage plants for imports unlimited. Italy, in 1946, is a country that was first destroyed and then freed, the desire to build is not only a matter of business but also the desire to see a beautiful and strong country resurfaced. Orfeo Mazzitelli immediately stands in significant positions among the most important national companies. The Company has acquired an invaluable know-how and has over the years worked with great prestige for their technological complexity. Currently, the business sectors are: "Private and Public Buildings; Construction and management of gas distribution networks, water systems, water purification plants, water treatment and treatment systems, urban solid waste treatment plants, as well as the construction of infrastructure such as roads, viaducts and galleries	www.ingorfeomazzitelli.it
	Andrea Cavallari	SECAP	Amministratore	Torino	"In over one hundred years of existence, SECAP has written an important page in the history of Italian construction. A page lived, today as yesterday, in the name of "good building" and "good working", a virtuous synthesis of selflessness, experience, technical competence, organization, "problem solving" and professional ethics. Public construction and private sector, renovations and restorations, infrastructures, maintenance interventions and a wide range of real estate services with high added value: today SECAP is a company that is both specialized and diversified, an absolutely reliable partner capable of offering any type of expertise in the construction field, addressing both large and medium-sized clients, both the private market and the public sector, without distinction, where SECAP renews one of the first traditions in the use of northern limestone." My company is a group of 70 companies that carry out public works, joining forces towards a single goal.	secap.it
